Ecommerce growth

648.5K organic visits | AI visibility 52 | 1.9K AI mentions | ChatGPT + Gemini + AI Overviews

I am Jyoti. I have 10+ years in SEO focused on organic growth and AI SEO -- Google, ChatGPT, Gemini, and AI Overviews. I work with national and international brands (India, Europe, US/UK). This PDF is one Shopify result: Nestasia (nestasia.in) -- kitchenware and home decor for India, now visible in classic search and AI answers.

Organic + AI SEO

Work on this Shopify catalogue: AI SEO (answer-ready blogs, clear product entities, so ChatGPT / Gemini / Google AI Overviews cite the store -- India AI visibility 52, 1.9K mentions, 1.6K cited pages), plus collection architecture, festival content, on-page, and Pinterest. Classic SEO: 648.5K visits, 37.2K keywords, 20 tracked terms Not in 100 to #1.

Blogs that feed the catalogue -- not random posts

Kitchenware and home decor in India are bought after people browse ideas: Rakhi gifts, Haldi captions, study-room styling, airtight storage. I grouped that demand into informational blogs and routed it into Shopify collections (jars, cookware, gifts, terracotta, dinnerware). Intent mix now: informational 53.7% / 378.9K visits, commercial 40.4% / 247K, transactional 5.4% / 20.6K, navigational brand 117.7K on only 244 keywords.

Keywords by intent

Category work on the Shopify IA

- ? AI SEO: blogs and product copy written so ChatGPT, Gemini and Google AI Overviews can cite Nestasia (India AI visibility 52).
- ? Kitchen: cookware, jars and canisters, lunch boxes, water bottles, spice sets, airtight storage.
- ? Home + gifting: terracotta, dinnerware, Rakhi and gifts for women -- seasonal India calendar.
- ? Blogs: festival captions, home-decor quotes, hosting guides -- internally linked to live collections.
